- Full-stack Web Development: in depth course covering python, Git, HTML, CSS and Javascript with an emphasis on modern frameworks like React/Redux, as well as server-side technologies including Node.js, Express, Sequelize and PostgreSQL

## Skills

- Python, Git, HTML/CSS/Javascript, jQuery, Node.js, Express, PostgreSQL, Sequelize, React, Redux, Passport.js

## Featured Projects

**Kackle | kackle webpage url | <https://github.com/Forlaenu/kackle>** February 2022

*Description:* kackle is a social media website that combines the best features of your favorite social media websites. Integration with Facebook and Twitter plus chat functionality. *Built with:* React, Redux, Passport.js, Sequelize with PostgreSQL, Express, styled with Chakra and Chatscope UI, and Beekeeper Studio, Postman, and Redux DevTools for testing. *Features:* Passport.js for local login with Kackle, then authorize Facebook and Twitter. Custom built chat

**BrewFinder | <https://github.com/Forlaenu/BrewFinder>** February 2022

*Description:* Search and find Breweries using Open Brewery DB and Google Maps. *Built with:* React, Redux, GoogleMaps API. *Features:* A unique way to find and keep track of the Breweries you've been to or want to visit. Using an open database and GoogleMaps, you can easily find your new brew.

**(You)sed Books | <https://github.com/Forlaenu/yousedbooks>** January 2022

*Description:* A unique book-lovers platform for creating reading lists and sharing your used books for buy or trade. *Built with:* HTML/CSS/Javascript, Express, Sequelize with PostgreSQL, BCrypt, and GoogleBooks, Wikipedia, and NYTimes API's

## Professional Experience

**CC Plus | MECP Specialist** July 2020 – September 2021

Conroe, TX

- Mechanical and electrical integration with a focus on 12v installations. I was the only **Mobile Electronics Certified Professional**, so I helped train and guide coworkers on electrical installations.
- Worked through projects solo and with groups, from interfacing with the customer's wants/needs upfront to delivery

**Self Employed | Automotive Detailer and Upholsterer** 2015 – July 2020

Austin/Houston, TX

- Started a business through referrals among friends and family. All the skills I learned myself through trial and error, and watching others on YouTube. My services ranged from basic washing to whole vehicle paint correction, polish and protection. I interfaced with customers to tailor an experience that was perfect for them, working around budget and schedules to deliver quality results
- I also took on upholstery projects including design, sourcing materials, building and installing the end products.

**CarToys | MECP Specialist** July 2020 – September 2021

Houston, TX

- Auxiliary systems and accessory integration that focused primarily on 12v interfacing. From greeting the customer to demonstrating the end result, I delivered services tailored to the customer's wants and needs. Maintained MECP certification throughout my employment.
